

The Loop at LaSalle Landing

The skate trail and water feature at LaSalle Landing are taking shape. The loop will have ice skating in the winter and walking, biking, jogging, and in-line skating in the summer. The circular water feature, the Rotary Circle, will feature water jets bubbling up from the concrete for warm weather fun.

The winter loop is expected to open by the end of December,

weather permitting, while the Rotary Circle will open in spring 2025.

Facts about the main trail loop:

- The trail loop will need approximately 400 cubic meters of concrete, which equates to about 50 truckloads.
- There are approximately 21 km of refrigeration piping in the concrete loop. For a comparison, this would stretch down Laurier Drive, from the LaSalle Boat Ramp to Howard Avenue, and back to the boat ramp.
- There are approximately 31 metric tons of reinforcing steel

to be placed in the concrete loop. This is equivalent to the weight of about 31 fully mature Clydesdale horses.

- The concrete loop is supported by about 76 foundations/footings installed perpendicular to the trail, 4.8 m apart.

LaSalle Fire Service, Second Station Construction Update

Construction at the LaSalle Fire Service, Second Station, located at 2160 Front Road, is well underway.

The new fire hall will provide LaSalle firefighters with the modern amenities and advanced equipment necessary to address the challenges of today and into the future. It is designed to enhance response times, reduce risks, and ensure the safety of our firefighters.

It is expected that the second fire station will be open for use in early 2025.

Studies and Special Projects

Strategic Plan Update

Parks, Recreation and Culture Master Plan

Strategic Plan Update

We are thrilled to share that we are in the process of reviewing and updating the Town’s current Strategic Plan, LaSalle 2050. LaSalle 2050 acts as a roadmap to guide all activities and growth for staff to support our residents and businesses in the Town of LaSalle over the coming decades. The updated plan will guide Council and administration to support the future of our municipality together.

Why does the Strategic Plan need to be updated?

While the Strategic Plan provides long-term direction, regular reviews ensure that we are adapting to new challenges and opportunities. The updated Strategic Plan will reflect the current needs of the growing LaSalle community to better support residents, businesses and staff for success in the years ahead.

What is the timeline for this process?

It is anticipated that an updated Strategic Plan will be presented to Council in March 2025.

How can you get involved?

Town administration and project consultants will be at events in the community to discuss the plan and gather feedback over the coming months. There will also be a community survey, discussions with business representatives and an active project page. We encourage you to follow our social media channels and visit www.lasalle.ca/stratplanupdate

Parks, Recreation and Culture Master Plan

The Town of LaSalle is preparing a Parks, Recreation and Culture Master Plan to guide strategic decision-making to meet the needs of all residents over the next 5 years, with a longer-term outlook to the year 2050.

The Master Plan will explore:

- Indoor recreation facilities such as arenas, pools, and gymnasiums;
- Outdoor recreation facilities such as sports fields, playgrounds, and splash pads;
- Parks, open spaces;
- Cultural facilities; and
- Program and service delivery

Community engagement is important to ensure that the Master Plan responds to the needs of residents. We want to know how you use parks, recreation, and cultural facilities, and how we can improve public spaces, services, and programs for current and future generations. A Community Survey will launch mid-November.

Town of LaSalle Open House

Thursday, November 21, 2024

4:00 pm to 8:00 pm

Vollmer Centre Lobby

2121 Laurier Parkway
